Education

Indian Institute of Information Technology, Nagpur

July 2023 - Expected June 2027

Electronics and Communication Engineering with specialization in Internet of Things

CGPA:7.81

Venus Public School, Gwalior

July 2021 - July 2022

Central Board of Secondary Education (Class XII)

PR:90.2

Experience

IIIT Nagpur

Remote

AI/ML Research Intern

May 2025 - July 2025

- Researched and developed **deep learning models** for accurate seizure prediction using EEG spectrograms.
- Preprocessed **EEG signals**, generated spectrograms, and extracted features to enhance model accuracy.
- Documented experiments and research findings for academic reference and to support future studies.

Elevate Club

Nagpur, India

Web Development Core Team

Jan 2024 - Dec 2024

- Developed dynamic and responsive modern websites for college events and clubs using the **MERN stack**.
- Built dashboards for event organizers to manage registrations, schedules, and announcements efficiently.

Technical Skills

Languages: C/C++, JavaScript, Python

Frameworks and Libraries: React.js, Next.js, Node.js, Express.js, Flask, OpenCV, Tailwind CSS

Databases: MongoDB, SQL

Tools Technologies: Git, GitHub

Coursework: Programming Techniques for IoT, Object Oriented Programming, Data Structures, Computer Networks, Database Management System

Projects

Arogya – AI Powered Healthcare Platform | *React.js, Express.js, Node.js, MongoDB, Tailwind CSS* **June 2025**

- Developed a **full-stack** healthcare system for users to find doctors, schedule appointments, and manage health records.
- Integrated **AI** models to provide advanced, customized workout plans tailored to user needs and accurately diagnose symptoms with smart suggestions.
- Created Doctor and **Admin** Panels to manage appointments, view history, assign prescriptions, track revenue, and integrate **Razorpay** and **Stripe** payment gateways.
- Implemented efficient, secure **JSON web token**-based authentication with role-based access for users, doctors, and admins.
- Used **Cloudinary** for reliable storage and secure retrieval of medical documents, reports, and diagnostic images.

FoodiFy – Online Food Ordering Platform | *React.js, Node.js, MongoDB, JWT, Tailwind CSS* **January 2025**

- **Designed** and developed a responsive web application for ordering food from local restaurants with real-time updates.
- Implemented **secure** user authentication and authorization using JSON web token with protected API routes and integrated **Razorpay** payment gateway.
- Used **MongoDB** to manage user data, menus, and orders, and **Cloudinary** to store food images and media files.
- Developed a secure **Admin** panel to manage restaurants, menu items, user accounts, and order tracking efficiently.

EliteNest – Real Estate Showcase Website | *React.js, Framer Motion, Tailwind CSS* **December 2024**

- Built a modern frontend platform to present real estate projects with a clean interface and smooth navigation.
- Used **Framer Motion** for engaging animations and interactive transitions, and **Tailwind CSS** for responsive layouts.
- Focused on a **user-friendly** and visually appealing design to effectively showcase building and apartment project details.

Achievements

- Top 7 Finalist in **Code Relay 3.0 Hackathon** organized by IIT Bhubaneswar among 200+ teams.
- Finalist in the **Software Track** of **Hacksagon 2025** at **IIITM Gwalior** among 600+ registered teams.
- Secured 3rd place in **ByteCraft ML & IoT Competition** at IIIT Nagpur with a smart IoT-ML solution.
